REYEIW OF MARKETS

Stocks, Money, Exchange, Bonds, Grain,

Cotton, Provisions, Etc.

New York, April 25.—Dealings in stocks to-day were rather/duli. The market generally heavy in the forenoon, while in the afternoon strength appeared, especially among those stocks which had been most depressed early. The Grangers initiated the improverient coincident with the weakness in wheat. London was a seller of the internationals, particularly of Louisville and Southern. Although the professional element was hearish, speculation throughout displayed an undertone of resistance which caused many of the trading element to reverse their tactics. Among the generally inactive shares very material advances appeared in Minneapolis and St. Louis, Detroit Gas. Canadian Pacific and Illinois Central. Anaeonda Mining advanced sharply on continued gossip connecting it with the proposed consolidation. Sugar, Gluces and Metropolitan were well supported and Tennessee Coal more than recovered from its early weakness. Gossip was revived of some alliance among the Sugar and Glucose interests, but nothing definite was made known in this connection, parties who should know being non-committal. In the money and Sterling Exchange market steadiness prevailed at practically unchanged quotations. Strength pervaded the dealings until near the close, when heavy realizing, especially in Manhattan and other transportation shares, cut off part of the advance, leaving the market weak, although a number of shares retained good advances on the day.

Business in bonds was well distributed to-day, and priess ware in the
